## Career Objective

Full Stack Developer who builds complete web applications with Next.js, React, Node.js, Express.js, and MongoDB, covering authentication, booking logic, and live deployment. Built and deployed StudioSpace, a full-stack studio booking platform. Seeking a junior full stack role where I can write clean, maintainable code, learn from a team, and grow into a strong software engineer.

---

## Technical Skills

**Language:** JavaScript (ES6+), TypeScript

**Tools & Platforms:** Git, GitHub, Postman, VS Code, Docker, Vercel, Netlify, Render, Firebase, Figma
**Soft Skills:** Problem Solving, Team Collaboration, Communication, Time Management

---

## Projects

**StudioSpace – Creative Studio Booking Platform** *(Nov 2026)* | Live Link | Client | Server
Built a full-stack peer-to-peer marketplace where creators discover and book creative studios and production spaces, and hosts list and manage their studios.

- Implemented email/password and Google sign-in with JWT authentication using HTTP-only cookies.
- Built studio listing management with browsing, search, filters, image uploads, and owner-only edit and delete.
- Developed a booking system with overlapping time-slot checks, where hosts can confirm, complete, or cancel bookings.
- Added reviews after completed bookings, a saved-studios wishlist, PDF invoices, and light/dark theme support.

*Built with **Next.js, React, Node.js, Express.js, MongoDB, Mongoose, JWT, bcryptjs, Google Sign-In, ImgBB, Vercel.***

---

## Education

**Diploma in Electronics Technology** | *Nov 2024 – Present*
Kurigram Polytechnic Institute

## Language

- **Bangla (Native)**
- **English (Professional Proficiency)**
